THE SEARCH FOR GROUND ZERO

The Big Apple has gone rotten and it's up to you to find out who's at the core.

The Combatribes, an elite group of Cyborgs created by the U.S. Military, have been commissioned by the government for one final mission.

The Combatribes will soon learn that the leader of Ground Zero once fought along side them. Martha Splatterhead—one of the early Cyborgs the military created—has gone mad and has taken over the streets of New York.

Join The Combatribes as they scour New York City with one purpose, seek out and destroy the leader of Ground Zero. It is up to you to take to the streets, conquer gangs one-by-one, gain information that will lead you to Ground Zero's headquarters and destroy their psychopathic leader.
